REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowable over the cited prior arts because said prior arts do not disclose or make obvious a method for encapsulating a water-soluble agent comprising forming a microemulsion containing the agent; adding the microemulsion to a solution of one or more polymers to form a dispersion, followed by adding the dispersion to a second solvent which is a non-solvent for the polymer, in order to encapsulate the microemulsion, thereby forming microparticles. Fessi et al, 5,118,528, discloses process for the preparation of dispersible nanoparticles comprising dissolving a PLA polymer in acetone; adding a surfactant to water; adding the two solutions with stirring to form nanoparticles of the polymer. This process is different from the claimed process as laid out above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
